X3MA is the 15" superlight wheel for tarmac rally and track races. Its **weight is almost 2 kg lower than the best alternatives on the market** and the design with thin spokes ensures better handling, acceleration and brake cooling.

X3MA is equipped with steel inserts that provide the maximum tightening of the nuts and features a **rim contour specifically designed to prevent the beading** with low inflation pressure.

X3MA is ideal for Renault Clio, Peugeot and other lightweight cars.
