# SANREMOCORSE

High performance on tarmac

16"-17"-18"

**SanremoCorse** is the line of alloy wheels designed for **tarmac rally** that is having great success on race tracks and road cars.

The structure has been designed to support heavy loads while maintaining the lightness necessary for racing use. The profile of the width allows the **installation of oversized brakes** while the design of the edges allows the installation of rigid and high performance racing tires.

SanremoCorse can also be used on road cars, thanks to the special mounting kit consisting of a centering ring, high strength bolts and hubcaps.
