

Saver Cells & Racells

45L Saver Cell Aluminium Container

Part Number: SA-AA-061

Size: (External) 531 x 464 x 250mm

Description: Aluminium Container for 45 Litre Saver

Cell

To comply with FIA Regulations, Saver Cells must be installed within an aluminium container.

Specification:

- Manufactured from 1.6mm thick aluminium
- Features Stainless Steel quick release clips for easy installation/removal of saver cell
- Supplied un-anodised with 'blank' sides and base - use your preferred method to mount container to bodyshell

Please note:

It is not recommended for customers to build their own alloy containers without consulting ATL as any sizing issues may invalidate Saver Cell warranty.
